We have launched our website and Social Media channels

The project website has been launched and also all social media channels! (LinkedIn and Twitter). The webpage includes a sign-up page for the VES4US Network, which is open and free to everyone who is interested in the project. Check it out and spread the news! We want to frequently update the website with latest advances – please let us know what’s new! (contact: hello@ves4us.eu)

PAPER (2018): “Minimal information for studies of extracellular vesicles 2018 (MISEV2018): a position statement of the International Society for Extracellular Vesicles and update of the MISEV2014 guidelines”

This year The International Society of Extracellular Vesicles (ISEV) review their own work, and now they have published an update of the MISEV2014 guidelines based on evolution of the collective knowledge in the last few years. The MISEV2018 paper includes tables and outlines of suggested protocols and steps to follow to document specific EV-associated functional activities. We interview Antonella, investigator of the work and also VES4US coordinator.
